

## **STANDARD COMPETITION - PHOTOGRAPHY RELEASE (to accompany images submitted to a noncommercial, design-related competition)**

Under Federal Law, the copyright to photographs that are produced on a freelance basis are owned by the photographer. Possession of an image in photographic form (including prints, slides, transparencies, negatives, digital files or any other form) is separate from and does not imply or establish ownership of copyright holder prior to reproduction, publicly display or distribution in any form.

This permission form, therefore, confirms the copyright holder's agreement that the photographs identified or described below may be submitted for the design competition named below and outlines the uses that may be made of the images if an award is presented to the project and/or its designers.

Competition:

Architect/Designer:

Project Title/Location:

No fee is being charged for permission to enter the photograph(s) in a competition sponsored by the national AIA or by a regional AIA affiliate or other not-for-profit, noncommercial design related organization. Usage fees are also waived for selected images of winning projects for the limited purpose of distribution in press kits to publicize winning entries in print media for one year from announcement date. If any publishers inquire about a feature story relating to the material presented with such press kits, they should be referred to Halkin Mason Photography for additional material. In addition, the photographs may be incorporated into any show in any medium for presentation at the competition's awards ceremony.

Specific written permission for any other use of the images can be arranged but must be negotiated with Halkin Mason Photography prior to future use. All distributed material must be properly identified with Halkin Mason Photography copyright notice and credit line data (shown below) and with the request that this identifying information appear adjacent to all published versions of the images. Additional permission is required if the photographic materials are desired to be added to an archive or library. These permissions are not transferable and are for use in connection with the designated competition only. If additional usage, such as for commercial use to promote a service or product, are desired, licensing must be specifically arranged with Halkin Mason Photography. In that event, the users of the photographs will be responsible for the appropriate licensing fees.

In no case does submission for consideration imply a transfer of ownership or the right to use the material in any manner other than that specified above.
